Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Detailed Action

This is the first Office Action corresponding to original filing. The application contains 21 claims.

Claim Rejections - 35 USC § 112

Claims 2-4 and 7-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2 and 3 recites the adjective “sufficiently” to define the curve of the slots. This clause is considered indefinite, since “sufficiently” is not a definite term, which mean varies from person to person. The examiner suggests deleting it from the claims.

Claim 7 is indefinite since it a base but a base has already recited in claim 1; is this a different base? Please clarify. For the purpose of this action, the clause “sufficiently” is not read into the claims, and the base is considered to be an additional base.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Christopher (Pat No 732,828).

The patent to Christopher shows a device capable of receiving documents comprising a base (bottom of the device), and pyramidal body (see Figs 3 and 4) having a vertical axis (an imaginary axis extending from the base to the top) having upwardly extending edge (from point A to the top) and multiple curved slots (D) on the slanting edge.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Christopher in view of Scott et al. (Pat No 6,446,929).

The patent to Scott et al. shows a holder comprising a rotatable base having a ball-bearing racetrack (see Fig 4). It would have been obvious to one skilled in the art at the time the invention was made to have provided the device shown by Christopher with a ball-bearing racetrack as shown by Scott et al. to allow the user to rotate it to facilitate its use.

Allowable Subject Matter

Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 10-21 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the slots curved outwardly from the vertical axis are not shown by the prior art of record.

Conclusion

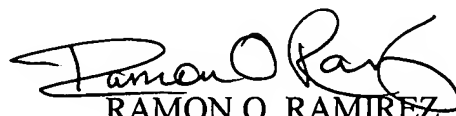

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Patton (165,500) shows a rotatable base. Hopp (D 161,840), MacEwan (D 328,314), Leeb (5,413,305), Menaged (5,722,628) show pyramidal shaped holders. VanLandingham, Jr (5,911,398) shows a curved slot holding a document.
